6. Click **Sign** in the toolbar, and then choose whether you want to add your signature or just initials

7. If you've already added your signature or initials before, select it from the **Sign** options, and then click in the **signature field** to place your signature
8. If you are signing a PDF for the first time, you will see the **Signature or Initials** panel

You can choose to type, draw, or import a signature image. Added signatures and initials are saved for future use

- **Type:** Type your name in the field. You can choose from a small selection of signature styles; click **Change Style** to view a different style
- **Draw:** Draw your signature in the field using the mouse
- **Image:** Browse and select a saved image of your signature
- **Save Signature:** When this check box is selected, the added signature is saved securely in Adobe Document Cloud for reuse. You will need to be signed into Adobe Acrobat Reader
- Click **Apply**, and then click in the **signature field** to place the signature or initial
